Phase 4 parts of a bicycle:

brakes, chain, chain guard, handlebars, pedals, pump, seat, two-wheeler, three-wheeler, side, (training) wheels

This Language Lab is used to further your child's vocabulary and language. The following vocabulary is based on the Ling Thesaurus. Phase 3 contains words needed for a basic minimum reading level. Phase 4 contains words that are typically mastered by age 8. It is important that your child understand the concept of each word in the phases. Use this a guide and resource as you talk/sign and interact with your child and improve their language.

--Beginnings SC Team

Take a Trip!

Go to a local park and find as many words from the list as you can and talk about them. For example, find a ball, talk about all the things you can do with it. Talk about people who are riding (a bike, a skateboard, etc.). As you find words on the list, cross them off. Also, discuss words that you don't see at the park and talk about why you may not see them at the park.

Grab some materials!

Go on an outdoor adventure, in your very own backyard! Find as many items from the list as you can. Talk about what you find and the purposes of each item. Create a fun short story using as many items from the list as you can!

Use your imagination!

Take pictures of your child doing various activities from the list, for example, drawing, painting, camping bowling, swimming. Create a photo album with the pictures so that you can identify and talk about them later. If unable to take pictures, find pictures in a magazine or online.
