Bad	Better
Like	Empty
Laugh	Frighten
Help	Happy
Good	Hope
Need	Love
Right	Miss
Wrong	Tired
	Silly
	Smart
	Unhappy
	Warm
	Worst
	Worse

This Language Lab is used to further your child's vocabulary and language. The following vocabulary is based on the Ling Thesaurus. It is important that your child understand the concept of each word in the phases. Use this a guide and resource as you talk/sign and interact with your child and improve their language.

--Beginnings SC Team

### Take a Trip!

When you are taking your child to a new place, or a place you have visited before, talk to them about the different emotions that they are feeling at the time. For example, when taking them to school they could use the words happy, and good to describe how they feel about a new day at school.

### Grab some materials!

Help your child draw a picture of themselves in different settings (school, daycare, with friends.) Around the picture, help your child write out words around the picture that relates to how they feel in that situation.

### Use your imagination!

Play a game of Charades! Take turns having your child act out the different emotions and feelings. After each word discuss why your child may feel each emotion or act out a "scene" that might represent that emotion, like being grumpy because of hunger or you stayed up too late watching TV.

Ear infections and permanent hearing loss can make it more difficult to make friends, know what to say at the right time, and generally impair social skills. If you have a concern, check with your doctor, ENT, or audiologist.
