This Language Lab is used to further your child's vocabulary and language. The following vocabulary is based on the Ling Thesaurus. Phase 3 contains words needed for a basic minimum reading level. Phase 4 contains words that are typically mastered by age 8. It is important that your child understand the concept of each word in the phases. Use this a guide and resource as you talk/sign and interact with your child and improve their language.

Take a Trip!

When you are taking your child to a new place, or a place you have visited before, talk to them about the different emotions that they are feeling at the time. For example when taking them to school they could use the words happy, and good to describe how they feel about a new day at school

Grab some materials!

Help your child draw a picture of themselves in different settings (school, daycare, with friends) Around the picture, help your child write out words around the picture that relate to how they feel in that situation.

Use your imagination!

Play a game and act out each word on the list. Take turns having your child act out the different emotions and feelings. After each word discuss why your child may feel each emotion or action.
